Celebrated a small team win like an Olympic win!	Attended a workshop to develop new skills and didn't zone out.	Took charge of a task and really enjoyed it (main character vibes)	Learned the difference between CC and BCC in email the hard way	Asked a supervisor for leadership advice
Worked with a team member to complete a task- personal growth!	Used active listening to understand someone's needs	Discovered the "undo send" button AFTER sending email without attachment	Took initiative when my supervisor needed extra help	Got a chance to present/public speaking and didn't stutter!
Took a course on LinkedIn Learning and now I am an expert!	Fixed the printer and now I deserve a promotion!	Free!	Added "Proficient in MS Word" but I'm still struggling with formatting tables	Checked in on a teammate's wellbeing after a hectic final's week!
Made sure a quiet coworker got a chance to speak!	Learned a new skill and added that to my resume asap!	Used VMock to practice an interview and realized I say "umm" a lot	Using AI to make a task more efficient and questioning if it will now take my job?	Collaborated with someone outside of my usual team and had to introduce myself... again.
Worked effectively in a team to complete a project	Saw FREE food in the break room and told everyone!	Spoke up in a meeting and shared a valuable idea	Adapted my communication style based on my audience (yes, used emojis too!)	Updated my resume... AGAIN.
